

Dear Baileys Harbor Residents,

Beginning at the December meeting, the Planning Commission will begin the process of amending and updating the Comprehensive Plan for the Town of Baileys Harbor. This process considers the existing conditions and assesses the future vision statement created for the following topical elements: Agricultural, natural, and cultural resources, land use, housing and economic development, transportation, utilities and community facilities, and intergovernmental cooperation. The process concludes with a review of the Town's implementation plan related to these elements.

The Planning Commission strongly encourages respectful citizen input throughout this process. To this end, the Commission has set aside December's meeting to identify and discuss current issues and opportunities within Baileys Harbor. Subsequent meetings will address and explore individual elements.

Planning Commission meetings currently take place via Zoom. To receive the agenda and a link to meetings, please contact your Town Clerk at admin@baileysharborwi.org or sign up for the Town of Baileys Harbor mailing list at the government website: www.baileysharborwi.org

For further questions regarding the Comprehensive plan please reach out to Plan Commission members, contacts listed on the Town website.

Thank you
